It's Never 2 Late Program

It's true! It's never too late to try something new. Each resident can enjoy their own experience at their own pace. It allows, regardless of experience, physical or intellectual abilities, to use the computer pleasurable and with minimal frustration. Just a simple press of a button can launch hundreds of applications. Email, Face book, photos, music, fun videos, TV episodes, history and news, hymns, bible study and many more!

Each resident has their own "page" where they can have all of their interests in one place. The staff helps them as much as they need, but they have become independent pretty quickly. We encourage family members to see what benefits it could bring to their loved one. It's a great program that they can do together or stay connected online.

Come check out this innovative program now available at Madison House! <http://www.in2i.com/>
